

ADAPTIVE[™]
SOLUTIONS GROUP

PLACING TOP TALENT BY PRIORITIZING PEOPLE

We are the go-to Professional Staffing resource for solving business challenges while prioritizing people. Our strong ability to listen, empathize, and care are the most critical elements towards establishing a true connection with our clients and consultants.

ABOUT US

What makes us different from other staffing companies? Our core values; Trustworthy, Genuine, Fun and Friendly, and Committed to Excellence. We are passionate about our core values because it is the foundation of how we conduct business with everyone we work with. We truly care about the positive experience we bring to our customers' lives.

As a leading provider of staffing solutions for local, regional and national clients, we understand the importance of finding the right talent. You need a partner in your corner who can help address complex staffing challenges.

We also understand how these needs vary tremendously – from company to company, even from manager to manager within the same organization.

By being attentive to our customer's needs, and by understanding the competencies and expertise of our consultants, we're able to connect the right people with the right opportunities, time after time.

Since our founding in 2002, we've structured our services around prioritizing people. By living our core values, both our clients and consultants will experience our passion for staffing and readiness to provide the exact solutions for any company's staffing demands.

In looking at our services, philosophy, and team background, our clients quickly see why people continuously turn to us as their foremost solutions provider for talent.

CLIENT SERVICES

CONTRACT

Companies utilize contract positions for various reasons, including project-based work, seasonal fluctuations, and filling voids created by vacation absences, maternity/long-term leaves, and attrition. These positions typically involve a defined start and end date.

CONTRACT-TO-HIRE

The cost of hiring the wrong employee can go well beyond dollars and cents. That's why companies often prefer to try out a potential full-time employee as a contractor first, evaluating his/her skill set before extending a permanent offer. This allows clients to validate not just an individual's technical ability but their personality and team chemistry. Our standard length of contract employment before conversion to permanent employment is 6 months.

PERMANENT PLACEMENT

Adaptive Solutions Group offers clients the option of permanent personnel placement and many of our consultants are open to accepting full-time employment with the right company. On a for-fee basis, we assist our clients in their recruiting efforts to identify full-time talent.
